PROFESSIONAL SUMMARY

Software engineering student in my last year of study, seeking a 6-month final-year internship (PFE) starting in February 2027 in Full Stack development, DevOps or Artificial Intelligence. Versatile and rigorous, I design end-to-end technical solutions, from design to deployment, with a high degree of autonomy.

EDUCATION

Engineering Degree in Software Engineering <i>Faculty of Sciences of Tunis (FST)</i>	09/2024 - Present
Bachelor's Degree in Software Engineering and Information Systems <i>Higher Institute of Information and Communication Technologies (ISTIC)</i>	09/2021 - 05/2024
High School Diploma (Baccalaureate) in Computer Science <i>Dar Chaaben El Fehri High School</i>	09/2020 - 06/2021

PROFESSIONAL EXPERIENCE

Full-Stack & DevOps Developer Intern, STB <i>Tunis, Tunisia</i>	06/2026 - 08/2026
- Developed and deployed a banking customer complaint management application in a DevOps environment on Kubernetes. - Built the Angular frontend and REST APIs following Clean Architecture (ASP.NET Core). - Containerized the application with Docker and deployed it to Kubernetes using Argo CD (GitOps); configured autoscaling, persistent storage and NetworkPolicies. - Set up a CI pipeline with GitHub Actions and implemented full observability. Technologies: Angular, ASP.NET Core (Clean Architecture), SQL Server, Docker, Kubernetes, GitHub Actions, Argo CD, Prometheus, Grafana, Loki, Tempo, OpenTelemetry.	
Full Stack Developer Intern, STB <i>Tunis, Tunisia</i>	07/2025 - 08/2025
Designed and developed an intelligent web platform for bank card management, with secure tracking and validation of operations via OTP. Technologies: ASP.NET Core (Clean Architecture), Angular, SQL Server.	
Full Stack Developer - Final-Year Project Internship (PFE), Sagemcom <i>Tunis, Tunisia</i>	01/2024 - 05/2024
Developed a secure web portal to centralize test logs and manage serial numbers and production operations, with full action traceability and an interactive Power BI dashboard. Technologies: ASP.NET Core, Angular, SQL Server, Power BI.	
Full Stack Developer Intern, Neopolis Development <i>Nabeul, Tunisia</i>	07/2023 - 08/2023
Developed a web application that automatically generates wikis, simplifying wiki creation and customization. Technologies: Angular, Flask, MySQL.	

PROJECTS

Plant Disease Detection	04/2026
Built a tomato disease detection system comparing machine learning models (Random Forest, SVM, KNN) and deep learning models (CNN, MobileNetV2), deployed via an API and a web application. Technologies: Python, Scikit-learn, TensorFlow/Keras, OpenCV, scikit-image, FastAPI, Streamlit, Docker, Render.	
MLOps: Bank Fraud Detection System	03/2026
Developed a machine learning pipeline for bank fraud detection: data analysis and preprocessing, model comparison (Logistic Regression, Random Forest, XGBoost), hyperparameter tuning, model interpretability, and deployment through a FastAPI API containerized with Docker. Technologies: Python, Scikit-learn, Optuna, SHAP, FastAPI, MLflow, Docker, Pandas, NumPy.	
AWS 3-Tier Cloud Architecture	01/2026
Designed a highly available, secure and scalable AWS 3-tier architecture with Docker containerization and ECS orchestration. Technologies: EC2, ECS, RDS, S3, ALB, CloudWatch, CloudTrail, Docker, Node.js, React, MySQL.	
CertiVerse - Decentralized Certification Platform (Blockchain / Web3)	10/2025 - 12/2025
Built a decentralized application to issue and verify certificates and diplomas on the Ethereum blockchain, ensuring authenticity and instant verification, and managing secure, tamper-proof student portfolios. Deployed online. Technologies: React, Solidity, Ethereum, Ethers.js, IPFS (Pinata), Vite, Vercel.	

TECHNICAL SKILLS

Programming Languages: Java, C, C#, Python, JavaScript

Databases: MySQL, SQL Server, MongoDB

Frameworks: Angular, React, FastAPI, Spring Boot, Flutter, ASP.NET Core, Express.js

Machine Learning & Deep Learning: Scikit-learn, TensorFlow, Keras, NumPy, Pandas

Computer Vision: OpenCV, scikit-image

Cloud & DevOps: Git, AWS, Docker, Kubernetes, Argo CD, GitHub Actions, Prometheus, Grafana, Loki, Tempo

Methodologies: Agile/Scrum

LANGUAGES

Arabic — Native

French — Advanced (B2)

English — Intermediate (B1)

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CLF-C02) - 05/2026
- Big Data Engineer Certificate, IBM - 12/2023

STUDENT ASSOCIATIONS

- ATIA FST - Active Member (09/2024 - Present)
- IEEE ISTIC - Media Officer (09/2023 - 05/2024)
